

REMARKS

Pursuant to the provisions of MPEP § 1207, previously pending claims 10, 13, 16 and 17 have now been canceled, without prejudice or disclaimer, in order to reduce the issues on appeal in the present action.¹ As noted in the referenced section of the MPEP, cancellation of claims from an application under appeal does not require any showing under 37 C.F.R. § 1.116 and appellants therefore request entry of the instant Amendment prior to submission of the file to the Board of Patent Appeals and Interferences.

Respectfully submitted,

By:
